

## Drum Pumps

Yamada Air-Powered Double Diaphragm Pumps have distinct design advantages that make them very versatile and cost effective drum pumps.

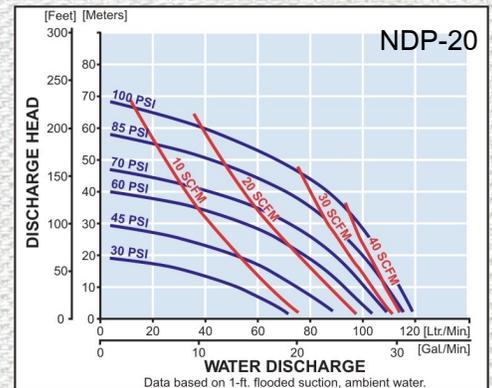

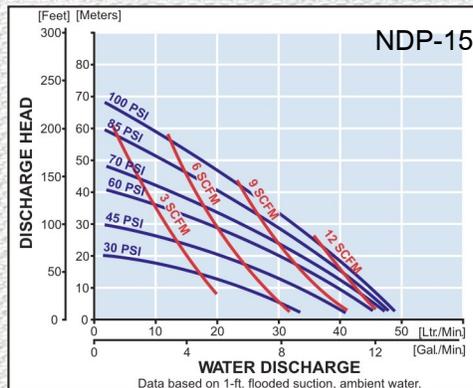

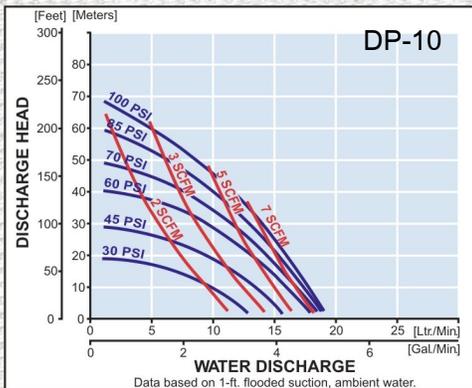

Available in the following elastomers:

- Neoprene
- Santoprene®
- Buna N
- Viton®
- Hytrel®
- PTFE

With a capacity for up to 12 GPM, the NDP-15 Polypropylene 1/2" drum pump is available with a bottom ported manifold.

The NDP-20 Aluminum 3/4" drum pump has a capacity of up to 28 GPM, making it the perfect industrial pump for unloading 55 gallon drums.

Refer to DP-10, NDP-15 & NDP-20 technical information for performance data.

## Drum Pump - FDA

Yamada offers the NDP-20 (3/4") in an FDA Drum Pump. Our FDA pumps were specifically designed for Food, Pharmaceutical & Cosmetic processors who are not required to meet 3A or USDA Standards.

- 316 stainless steel housings
- Passivated satin finish
- FDA compliant elastomers
- Non-Metallic air motor
- Handles a wide variety of fluids with high solids content

### NDP-20BST-FDA-D

#### Includes:

- 1" Heavy Duty Clamp
- FDA Compliant Pump
- 2" Bung SS – Passivated Finish (1" I.D.)
- Pipe
- PTFE Gasket
